Dear Bob

Institute of Fire Safety Managers

I thought I would drop you a short note to inform you of a couple of positive things that have happened since I joined the Institute of Fire Safety Managers earlier this year

1. My Professional Indemnity Insurance was due for renewal last month. I have renewed the insurance with Sennet via the link from the Institutes' web site and saved myself over £400.00 on my previous years insurance premium.
2. I have had my quote accepted to carry out 20 fire risk assessments for a transport firm with depots from Southampton to Glasgow.

In the concluding discussions with their Health and Safety Manager, he confirmed that one of the main reasons that I was awarded the contract was that I could demonstrate Third Party Accreditation (from the Institute of Fire Safety Managers) for my Fire Risk Assessments.

I appreciate the benefits of being a member of the Institute; please accept my grateful appreciation to you and your fellow officials.

Kindest regards and best wishes

Chris
